

SS Classes Website Review

The website already has a professional look. The main suggestions below are about making the information clearer, more consistent and easier for parents and students to understand.

1. Fix experience and year inconsistencies

There are a few different figures mentioned on the website. One page mentions “18+ Years of Excellence”, while another says the institute was founded in 2015. There is also a reference to 20+ years on Prof. Satish's image, while another page mentions 15+ years. The correct figures should be confirmed and then used consistently across the website.

2. Reword “small batches”

The homepage uses the phrase “small batches”, while another page mentions 35 students per batch. A clearer option would be “Limited batch sizes with personal attention.”

3. Make the first screen stronger

The homepage has a clear structure with the main heading, description, Book Free Demo and WhatsApp Us. It could be made stronger by adding one simple trust point, such as “3,000+ Students Taught” or a verified teaching-experience figure.

4. Shorten the faculty section

The faculty section is quite long on mobile. A few key faculty members can be shown first, followed by a “View All Faculty” option. This would make the page easier to scroll through.

5. Clarify the English-speaking course fees

The monthly, six-month and yearly options are currently spread across several pages. A simple fee table would make the choices much easier to compare.

6. Strengthen the results section

The website mentions 3,000+ students taught, a 95% pass rate and 200+ board toppers, along with 2025–26 results. These figures can be highlighted more clearly. If the figures are documented or verified, that can also be mentioned.

7. Make batch timings easier to find

The FAQ mentions daily batch timings. Where possible, the current morning, afternoon and evening options should be shown directly under the relevant course or academic programme.

8. Add more reviews

The website currently shows a 4.9 rating based on 71 Google Reviews and one detailed review. Adding three to five short reviews would give visitors a better idea of students' experiences.

9. Strengthen the alumni section

The alumni section includes examples such as a doctor, software engineer, chartered accountant and lawyer. Adding the course or year, wherever available, would make the connection with SS Classes clearer.

10. Keep the “Life at SS Classes” section

The classroom and event photographs help show the actual environment of the institute. It would be useful to add one or two photographs that clearly show teaching or classroom interaction.

11. Clean up the address formatting

The GTB Nagar (Head Office) address should be displayed in a clean, easy-to-read format. The direction or map button should remain clearly visible.

Suggested English Course Fee Display

Plan	Fee
Monthly	■999/month
6 Months – One Time	■6,000
6 Months – Installments	■9,000
1 Year – One Time	■9,000
1 Year – Installments	■12,000

Admission fee shown separately: ■999. Notes, bag and T-shirt charges are also mentioned on the website.

Main Changes to Focus On

- Correct the experience and year figures and keep them consistent.
- Present the English-course fees in one clear table.
- Replace “small batches” with “limited batch sizes with personal attention”.
- Make the faculty section shorter and add a “View All Faculty” option.
- Add clear student, results and trust points near the top of the homepage.

Conclusion

The website does not need a complete redesign. The existing branding, results, faculty information, reviews, alumni section and “Life at SS Classes” section already give it a good base. The main improvement would be to make the information more consistent, easier to scan and clearer for parents and students.
